

N 09/350251

**PATENT***#33  
P. Walker  
07/22/03***IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

Applicant: Arye Malek et al.

Examiner: John Nguyen

Serial No.: 09/350251

Group Art Unit: 3653

Filed: July 8, 1999

Docket: 139.059US1

Title: TRAY FLIPPER AND METHOD FOR PARTS INSPECTION

**NOTICE OF APPEAL FROM THE DECISION OF THE EXAMINER****TO THE BOARD OF PATENT APPEALS AND INTERFERENCES****MAIL STOP AF**

Commissioner for Patents

P.O.Box 1450

Alexandria, VA 22313-1450

**RECEIVED**  
JUL 23 2003  
**GROUP 3600**

Applicant respectfully requests reconsideration and withdrawal of the rejections.

Applicant notes that, regarding the Examiner's question as to how a shorter car helps the time or distance between two cities, that with cars that are half as long, twice as many cars can be on the highway, bumper-to-bumper between the start and destination as with longer cars, and thus, for example, twice as many cars can travel the distance at a given speed in a given time as is possible with the cars that are twice as long. Similarly, twice the number of trays will travel the distance between stations when they travel parallel to the short dimension, with trays that are twice as long as wide. Applicant's claims clearly recite this patentable difference. Further, the Examiner has not cited any art or reason why a flipper that placed the items back into the same initial tray would be obvious.

In compliance with 37 C.F.R. § 1.191, Applicant hereby appeals to the Board of Patent Appeals and Interferences from the decision dated April 15, 2003, of the Examiner rejecting claims 3-10, 12-21, 27-30, 37-40 and 42 of the above-identified patent application.

No extension of time is necessary to respond to the Examiner's rejection.
